Fund overview

The Redhedge Relative Value UCITS Fund focuses on core liquid European Investment Grade Credit employing a market neutral, relative value investment strategy. This strategy aims to optimise risk-adjusted returns while minimising returns volatility and potential drawdowns by using a long-short approach, hedged against downside risk. The investment process consists of idea generation and relative value credit selection and is driven by a combination of both quantitative and fundamental credit analysis. This repeatable and scalable process is focused on identifying the most attractive relative value credit opportunities, centre to our core investment philosophy to maintain consistency and discipline regardless of market direction, volatility, or conditions.
